Submittal Sheet

2" STANDOFF COLLARS WITH DAMPER

Sheet Metal Connectors' standoff collars are fabricated from galvanized steel. These collars have a crimp and stop bead on one end. The volume damper is made out of 20 ga. galvanized steel with stiffening beads and a continuous 3/8" aluminum square shaft for strength and rigidity. Nylon end bearings are added to each end to reduce air leakage. Our standard collars have a 3/8" elevated dial regulator for 2" insulation.

E-Z TAP COLLAR W/2" STANDOFF

ORDER SIZE	OVERALL LENGTH	CARTON QUANTITY
