ROUND DUCTCAP

Ductcap™ is designed to meet mechanical engineers specifications. When using Ductcap™ to cover all round duct-wall penetrations it will keep moisture, dirt particles, dust and debris from entering the air handling system. This is done without tape, screws or nylon ties. Ductcap™ is inexpensive, labor saving and reusable! The use of Ductcap™ will save time, money and will enable contractors to deliver a better product to their customers.
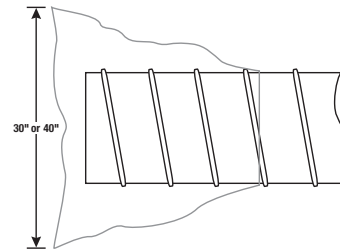

16 x 20 x .002 Fits 6" thr ough 10" round pipe
24 x 20 x .002 Fits 10" thr ough 14" round pipe

6" to 14" are manufactured from .002 mil thickness polypropylene plastic with a 1/4" elastic band that has a stretch capability of approximately 300%.

30 x 30 x .003 Fits 14" through 18" round pipe
40 x 30 x .003 Fits 18" thr ough 24" r ound pipe

14" to 24" are manufactured from .0025 mil thickness polypropylene plastic with a 1/2" elastic band that has a stretch capability of approximately 300%.

Larger sizes are available. Please consult factory.

RECTANGULAR DUCT WRAP

Rectangular Duct Wrap is designed to meet mechanical engineers specifications. When using Duct Wrap during the construction process it will keep moisture, dirt, dust, and debris from entering the handling system. This is done without tapes, screws or nylon ties. Duct Wrap is inexpensive, labor saving and easy to apply thanks to its pressure sensitive adhesive. The use of Duct Wrap will save time and money allowing contractors to deliver a better product to their customers.

Manufactured in 2 mil thickness. 36" wide x 200' long rolls. Other sizes available. Please consult factory.

500 Revised 8/07
