ALUMINUM LOUVERS (EGG CRATE)

Para Image™ Aluminum III

- Heat Dissipating
- Non-Flammable
- Easy Maintenance

The Para Image Aluminum III “eggcrate” is a non-parabolic aluminum louver that eliminates glare and brightness, is economical and versatile, and very easy to clean and maintain. The Para Image Aluminum III has an open grid non-flammable design, allowing use in air ventilation applications and for concealing fire sprinkler systems (be sure to check with prevailing fire codes). The product is produced from high quality aluminum material that is available in a broad range of colors and finishes. Although we do not stock every option, we do carry inventory on many of the most popular selections.
